SUMMARY

Senior Frontend Engineer with 4+ years of experience building scalable SaaS platforms, headless commerce solutions, and high-performance web applications. Specialized in React.js, Next.js, TypeScript, frontend architecture, and performance optimization. Proven experience delivering multi-tenant applications at scale, improving Core Web Vitals, building reusable component systems, and leading frontend initiatives across e-commerce, AI, fintech, and media domains.

SKILLS

Languages: JavaScript, TypeScript, SQL, Python, Liquid

Frontend: React.js, Next.js, Astro, Redux, HTML5, CSS3, Tailwind CSS, Framer Motion

Frontend Architecture & Performance: Design Systems, Component Architecture, State Management, Core Web Vitals, Performance Optimization, SSR/SSG, Responsive Design, Accessibility (WCAG), SEO Optimization

Backend Integration: Node.js, REST APIs, GraphQL, FastAPI, WebSockets, SSE

Cloud & DevOps: AWS (S3, EC2, Lambda, SQS, IAM), Azure DevOps, GitHub Actions, CI/CD, Vercel

AI & Automation: AI/LLM Integration, Prompt Engineering, ETL Automation, Workflow Automation

Commerce & Tools: Shopify Plus, Headless Commerce, Playwright, Git, Figma, Postman

Engineering Practices: Agile Methodologies, Technical Leadership, Cross-functional Collaboration, Code Reviews, Mentorship

EXPERIENCE

Software Development Engineer II – Frontend Lead

Mar 2025 – Present

Wednesday Solutions

Pune, India

- **Conduit Commerce** — Multi-store Shopify Plus platform powering 70+ US commerce storefronts.
- Led frontend architecture for a reusable multi-tenant commerce platform, enabling standardized experiences across multiple brands.
- Built scalable personalization and add-to-cart workflows using Shopify Metafields and Metaobjects beyond native Shopify limitations.
- Developed Python and SQL automation pipelines that reduced retailer onboarding time from 2 weeks to 1 day.
- **Tech:** React, TypeScript, Shopify Plus, GraphQL, Python, SQL
- **Sage** — Video Content Management SaaS for financial advisors.
- Led frontend implementation while collaborating with backend teams to deliver scalable AI-powered media workflows.
- Architected an AI thumbnail generation pipeline, reducing media processing costs by 98% (\$15 to \$0.20 per video).
- Built real-time collaboration features using WebSockets and Server-Sent Events (SSE), improving workflow efficiency and user experience.
- **Tech:** React, TypeScript, GraphQL, FastAPI, AWS Lambda, Supabase, WebSockets

Senior Web Developer

Jul 2023 – Feb 2025

Biz Lighting Pvt Ltd

Gurgaon, India

- **Headless Commerce Platform** — React-based Shopify Plus solution for US B2B and DTC brands.
- Led migration from traditional Shopify themes to a scalable headless architecture using React and Shopify GraphQL APIs.
- Improved Core Web Vitals from 33 to 89 through SSR/SSG strategies, code optimization, and performance-focused engineering.
- Designed reusable frontend architecture and integrated HubSpot, Klaviyo, GTM, and Microsoft Clarity for analytics and marketing automation.
- **Tech:** React, Shopify Plus, GraphQL, TypeScript, HubSpot, Klaviyo, GTM

Software Developer

May 2022 – May 2023

Cybrom Technology

Bhopal / Bangalore, India

- **Media Firewall** — AI-powered content moderation platform.
- Developed responsive React dashboards and role-based moderation workflows supporting large-scale content review operations.
- Integrated AWS services including S3, EC2, SQS, DynamoDB, and IAM to support scalable media processing pipelines.
- Collaborated with AI/ML teams to streamline moderation workflows while improving usability, operational efficiency, and accessibility.
- **Tech:** React, JavaScript, AWS, Python, DynamoDB, S3, EC2, SQS

EDUCATION

Bachelor of Business Administration (BBA)

2018 – 2021

BSSS College

Bhopal, India
